(*) not directly alerted as « double deux » by South. But explained before West's lead.

Facts:

West leads small club and says that if he knews that that 2D was not a « double deux », he would have led hearts.

Ruling:

the convention card includs the « double deux »

Then the explanation given to West was correct even if effectively North made an error in the application of his system

Moreover even if he would have led hearts, the contract couldn't fail considering the level of the players.

Decision:

The score stands.
