(*) explained from South to West as 4 cards in Spade no alert from North to East.

Facts :

West asked the meaning of 2H, South answered 15-17H with 5 clubs and 4 hearts West said that if he would have known that North was minimum, he would have bid 3D.

<u>Ruling :</u>

The explanation of South is correct acocrding to their system North forgot that 1H was transfer for the spades and then bid 2H naturally.

We asked 3 players, all three passed knowing North was minimum

Decision :

Score stands

1 VP penalty to NS for system disruption
